

In response to the ongoing COVID-19 pandemic, DSHS will continue to issue Emergency Supplements for Basic Food for May 2020, to bring the benefit level of all households up to the maximum allotment for their household size. The Food and Nutrition Services (FNS) permits states to continue issuing emergency supplements on a month to month basis, contingent upon request and approval from FNS.

Please encourage all families in need to apply by calling 2-1-1 and operators will complete the applications on their behalf.
